Experience

Hide Experience

Front-End Developer - ABC Tech

Jan 2022 - Present

Contributed to the development of a complex web application using React, Redux, and TypeScript. Implemented responsive designs, optimized code for performance, and collaborated with backend developers to ensure smooth API integration.

Web Developer - XYZ Solutions

Jun 2020 - Dec 2021

Developed and maintained websites for small businesses using modern web technologies such as HTML5, CSS3, JavaScript, and WordPress. Ensured all websites were optimized for mobile and SEO-friendly.

Junior Developer - Dev Corp

Jan 2019 - May 2020

Assisted in the development of internal tools and dashboards using JavaScript and PHP. Gained experience working with version control systems (Git) and collaborating with senior developers to improve code quality.

Education

Bachelor of Science in Computer Science - University of Tech

Graduation Year: 2019
